

# CSS Exercises for Strat Hawk Landing Page

# Home HTML

1. Open index.html
2. Define "banner-image" class for <img> tag.
3. Include new <div> with class "shading" after the <img> tag.
4. Remove <h2> tag for Plan and include a <div> with "banner-text" as class. Include the text "The World is yours." within this <div>. Place this <div> tag after the "shading" <div>

```
  
<div class="shading"></div>  
<div class="banner-text">The World is yours.</div>  
<div class="search-form-container">
```

# Home HTML (Contd.)

1. Enclose Recommended Flights heading and <div> with class "flights" into a <div>. Define class for this <div> as "recommended-flights"
2. Change the Recommended Flights heading class as "heading-recommended-flights"

```
<div class="recommended-flights">  
  <h2 class="heading-recommended-flights">Recommended Flights</h2>  
  <div class="flights">... </div>  
</div>
```

# Styles

1. Open **strat-hawk/styles/styles.css**
